

Form 17

Graduate Institute of Science Education
National Taiwan Normal University

Application for Waiver of Science Course Credit Hours for Master's Students

Application Date : _____year_____month_____day

Student Name : _____ Student ID Number : _____

The science courses and their credit hours that the student wish to waive.

Direction: The science courses that the GISE requires master's students to take should be graduate-level courses. Undergraduate-level science courses can only be taken when the courses are in different disciplines from the student's major field. However, only two thirds of the undergraduate-level science course credit hours can be used to do so, and these credit hours should not be counted toward all the needed credit hours that the student should complete to graduate. As for the rest of the science course credit hours, the student should still take graduate-level courses to fulfill.

Course Title and Credit Hours Completed	Total Credit Hours Intended for Waiver	Credit Hours required by the GISE	Ratio of Waived to Required Credit Hours
		Type I 9 credit hours	
		Type II 12 credit hours	
		Type III 12 credit hours	

Advisor (Signature) : _____

Signature of the GISE Director : _____
